RE: Site Name: McKinley Thompson Landfill
TD No. R05-8410-02A

Dear Mr. Sternberg:

The above listed site has never been and will never be used for the disposal of hazardous waste. We clarified this in our November 29, 1982 letter to Mr. Constantelos, Director, EPA Region V. (See copies attached.)

I am cancelling our appointment for October 29, 1985. I am also forwarding copies of this information to US EPA Region V, with a request to update their records and remove this site as a candidate for the National Priorities List.

Sincerely,

W. J. Lane

RE: Site Name: McKinley Thompson Landfill
TD NO. R05-8410-02A

Dear Mr. Levin:

I am enclosing copies of correspondence with US EPA, Region V, regarding this site. Please remove this site as a potential candidate site for the National Priorities List.

This is not and has never been a hazardous waste site.

Your cooperation is appreciated.

Sincerely,

W. J. Lane

This order shall be effective immediately.

Basil G. Constantelos, Director
Waste Management Division

Dated: February 3, 1983

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

REGION V

IN THE MATTER OF:

Lane Restoration, Inc.
4600 Bluff Road
Indianapolis, Indiana 46217

Respondent,

EPA I.D. #INT 190011361

Docket No. V-W-83-R-011

ORDER TO WITHDRAW COMPLAINT

Director, Waste Management Division, Region V, of the United States Environmental Protection Agency (U.S. EPA), having been duly delegated authority by the Regional Administrator, hereby withdraws the Complaint issued on October 26, 1982, to Lane Restoration, Inc. This Order is issued pursuant to the Consolidated Rules of Practice, 40 C.F.R. § 22.14(e), for the following reasons:

1. The Complaint cited Respondent for treating and disposing of hazardous waste after November 19, 1980 without a permit or having achieved interim status in violation of Section 3005(a) of the Resource Conservation and Recovery Act (RCRA). Respondent failed to achieve interim status due to his apparent failure to submit a timely notification as required by Section 3010 of RCRA.

2. Based upon representations made by Respondent after the Complaint was issued, U.S. EPA has determined that Lane Restoration, Inc. did not and does not plan to treat and/or dispose of hazardous waste at its 3200 Harding Street, Indianapolis, Indiana facility. Therefore Respondent was not required to file a notification pursuant to Section 3010 of RCRA by August 18, 1980.

Re: Order to Withdraw
V-W-83-R-011

Dear Mr. Lane:

On October 26, 1982, I issued a Complaint to Lane Restoration, Inc. citing the facility for treating and disposing of spent pickle liquor from steel finishing operations which has been identified or listed as a hazardous waste under Section 3001 of the Resource Conservation and Recovery Act (Act), without a permit and without having achieved interim status in violation of Section 3005(a) of the Act. Interim status was not achieved because Respondent failed to file a timely notification pursuant to Section 3010 of the Act. Based on a letter addressed to the United States Environmental Protection Agency (U.S. EPA) by Mr. W.J. Lane, a review of the file on the facility and discussion with the Hazardous Waste Management Branch of the Land Pollution Control Division of the Indiana Stream Pollution Control Board, I am issuing the enclosed Order to Withdraw Complaint. This Order is issued based on the conclusion that Lane Restoration has never and will never treat and/or dispose of hazardous waste at their facility at 3200 Harding Street in Indianapolis, Indiana.

Sincerely,

Basil G. Constantelos, Director
Waste Management Division
